

*Cancer  
Research  
Institute*

Beal City NHS  
Walk-A-Thon  
May 11th, 2023

Cancer Research Institute's mission is to "Save more lives by fueling the discovery and development of powerful immunotherapies for all cancers."

**What is immunotherapy?**

Cancer immunotherapy, also known as immuno-oncology, is a form of cancer treatment that uses the power of the body's own immune system to prevent, control, and eliminate cancer.

**Why donate?**

Donating to cancer research is a great cause to support for many different reasons. From experiencing cancer firsthand to supporting a friend or loved one, funding this research can be beneficial to so many. It helps our community as well as people all around the world.

30+ cancers are now treatable with immunotherapy thanks to CRI.

Annually, 4 million+ patients benefit from CRI

CRI is rated as the top 5% of U.S. charities
